Situation:

Satellite recon and covert ops troops have confirmed Albanian Forces are storing Chemical Weapons material in a hangar at Berat Airbase. Your job is to destroy the hangar before they have the chance to transport the materials to nearby Lushnje for further processing.

Recon:

The hangar we are particularly interested in can be seen quite clearly in the following recon image:

A couple of well placed Mk-84 should be sufficient to destroy the hangar and its contents.

A SEAD Escort has been assigned to accompany the Strike flight, while a SEAD Strike will be airborne also with specific orders to destroy the SA-10 installation at Mifol Airbase, approximately 25 miles west of Berat.

Enemy air activity is determined to be low.

Good Luck!
