Situation:

Wonsan Airbase is being resupplied by way of the 1027th and 1031st Task Forces. The task of interdicting this shipping has fallen to the 185th, currently based at Kangnung Airbase. This should be pretty much a milk run for the battle-hardened pilots of the *Dogs* squadron; except our stores are running low, and AGM-65G Mavericks are all we have left to effectively attack the shipping with.

Good Luck!

NB – For SEAD Escort to score a Partial Success, maximum one loss from either Cowboy or Falcon flights is allowed, or in other words three of the four Strike airframes should not be lost to SAM/AAA.
