16:52:56	Challis 1	AWACS		3144	1 x E-3		
17:03:20	Claw 1	Escort	Bone 1	3845	4 x F-15C		
17:05:44	Bone 1	OCA Strike	Rijeka AB	3845	4 x B-1B		
17:09:00	Fury 1	Escort	Cowboy 1	3676	2 x F-16C-52		
17:11:00	Falcon 1	SEAD Strike	SAM threats around Krsko	3676	2 x F-16C-52		
17:13:00	Cowboy 1	Deep Strike	Krsko Nuclear Facility	3676	4 x F-16C-52		
⁽¹⁾ Blue colour indicates for human use. Red colour indicates for AI only.							
Mission Success criteria		All flights	100% destruction of Krsko Nuclear facility				
Mission Partial Success criteria		All Flights	Processor and laboratory buildings destroyed				
Air to Air Weapon Loadout (Free or Fixed)		Free					
Air to Ground Weapon Loadout (Free or Fixed)		Free for Cowboy and Fury, but Falcon must stay Air to Air					
Mission Flight plan (Free or Fixed)		Free					

BACKGROUND

Despite their constant promise to the United Nations, Slovenia has been suspected of developing weapons grade nuclear material. Recent infiltration by our intelligence operatives has confirmed that they are doing just that. More importantly they have enough for a multi warhead missile. Our politicians are at the UN as we speak to confront Serbia with this information.

CURRENT SITUATION

Talks at the UN are not going well and Slovenia is past the dead line set by them. It has been sanctioned by the UN for NATO forces to take military action to prevent any further progress in the production.

MISSION DETAILS

The nuclear facility at Krsko is the centre of the troubles and must be destroyed. Command wish to send a clear message that no quarter will be given and has therefore ordered the complete destruction of the facility. Command does recognise that this may be easier said than done, but the very minimum that can be accepted is the destruction of the processor plant and the laboratory building, the latter being where the plans and records of their progress are held. Destruction of these two zones will bring their nuclear programme to an immediate and long lasting halt.

A second mission to destroy recently delivered parts and machinery will be performed at the same time. See 'Friendly' below.

Weather – Windy and raining in all areas of the mission.

Temperature of 21°C, wind 19knots at 237°

Fog layer at 2500 feet

Visibility 50%

Enemy – The Slovenians are fully aware of the political process and what the likely outcome was going to be, so they have put their limited but effective defences on full alert.

Expect to encounter considerable air defences as well as SAM and AAA (some mobile) at the target and en route. We are reliably informed that no R77 Adders are available to the Slovenian Air Force.

Friendly – Bone 1 and Claw 1 will be reaching their target of Rijeka air base as you approach your target. They have to destroy important precision manufacturing equipment, currently stored at this base before it can be shipped to Krsko.

Challis 1 will provide AWACs support throughout.

Mission – Cowboy 1 is to destroy Krsko nuclear plant completely. Falcon 1 is to clear the area of SAM threats and AAA that is likely to threaten Cowboy 1. Fury is to cover the skies in support of Cowboy and Falcon flight, though Falcon is to assume an air cover role when not Mud Moving.

Target – The target is shown below. Be sure to pick the correct target as there are other industrial units nearby.

Route and Load Out – Load out is free with the exception of Fury flight. A direct route is recommended.

ROE – There are friendlies in the skies around you. Declare unknowns and visually confirm if necessary.

Good Luck
