BACKGROUND

Still a very tense political situation in the area. All sides have been ramping up forces while the politicians talk.

CURRENT SITUATION

Forces have been put on high alert, all leave cancelled.

Egypt has been observed carrying out intensive ground attack training and been flying close to border with their recently arrived SU-27's. Intelligence sources are almost certain that an attack is imminent on a high value target.

All squadrons are being briefed on situation and allocated flight boxes. We have been given the task of protecting the nuclear plant at Dimona.

Enemy – Egypt has been training hard with their new SU-27's which have arrived within the last 6 months and now bolster their aging Mig 21's and 23's so be prepared for all threats.
