Background

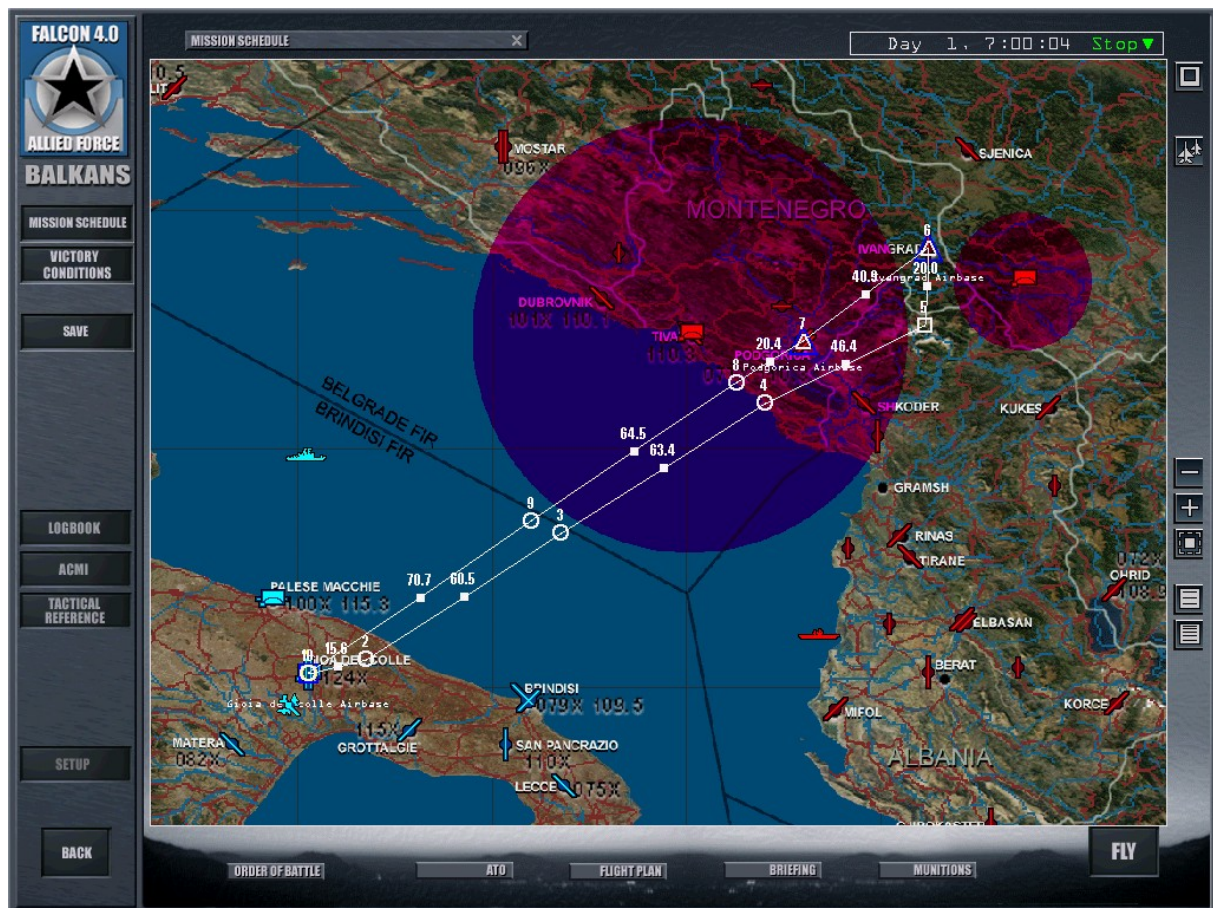

Ivangrad and Podgorica Airbases have been confirmed as high priority targets. The enemy is beginning to move more advanced SAM systems into the area and both bases need to be rendered inoperable as a matter of urgency, before the area becomes virtually in-penetrable.

Mission

Destroy Ivangrad Airbase (1 runway) and Podgorica Airbase (2 runways) for Mission Success.

Destroy Ivangrad Airbase (1 runway) and damage at least 1 runway at Podgorica Airbase for Partial Success.

Enemy

SA2/SA5 are known threats with SA10 NE of Ivangrad. SA6 is highly probable. The current position of the enemy carrier poses a potential threat from SA-N-6 – plan the route with care!

Latest intel confirms active SA17 battalions are now in the vicinity, however engaging all the SAM launchers is not necessary to achieve the mission objectives; with careful flying, using the terrain for cover the SA17s can be avoided (easy for them to say!), so be careful guys – “you know how these pencil pushers can get their intel totally screwed!”

Details of Hostile AC and locations are available in the “Order of Battle” at Mission planning and include SU33SM’s, Mig 29S’s and various Mig 21 versions.
