### BACKGROUND

President Doosh is making one of his Global Tours of Duty which are supposed to inspire the troops in the various theatres around the planet in which American Servicemen and Women are putting their lives on the line for some unknown, unworthy and probably unachievable cause, and his current "tour of duty" finds him in the Korean theatre. Presently he is at Taegu and will shortly be boarding a flight for the short hop to Kimpo Airbase, up near the DMZ. Despite being heavily advised against it, he is going to make this trip anyway, irrespective of the obvious dangers.

### MISSION

Your squadron has been tasked to fly a Barrier CAP patrol along the DMZ to the North of Kimpo Airbase to help ensure President Doosh's flight lands at Kimpo. His ETA is 14:43hrs.

## MISSION SUCCESS CRITERIA

Mission success is simple – ensure the 2 x C130H land safely. However, this also means you must ensure Kimpo stays operational – prevent any aerial attacks aimed at disabling the airbase. There are no partial requirements, simply succeed or fail.

## FLIGHT PARAMETERS

**Home Plate :** Kunsan Airbase.

**Alternate :** Seosan Airbase.

**Weapons :** Loadouts are free, you may select any and all weapons you feel your package will require to ensure you succeed in your mission.

**Flightplan :** The flightplan is free, you may alter it to suit accordingly (see Image 1 below).

**Weather :** At home plate, the weather is clear, light to medium winds.  
At the patrol area, overcast at 6,000 feet but clearing.

## FRIENDLY SUPPORT

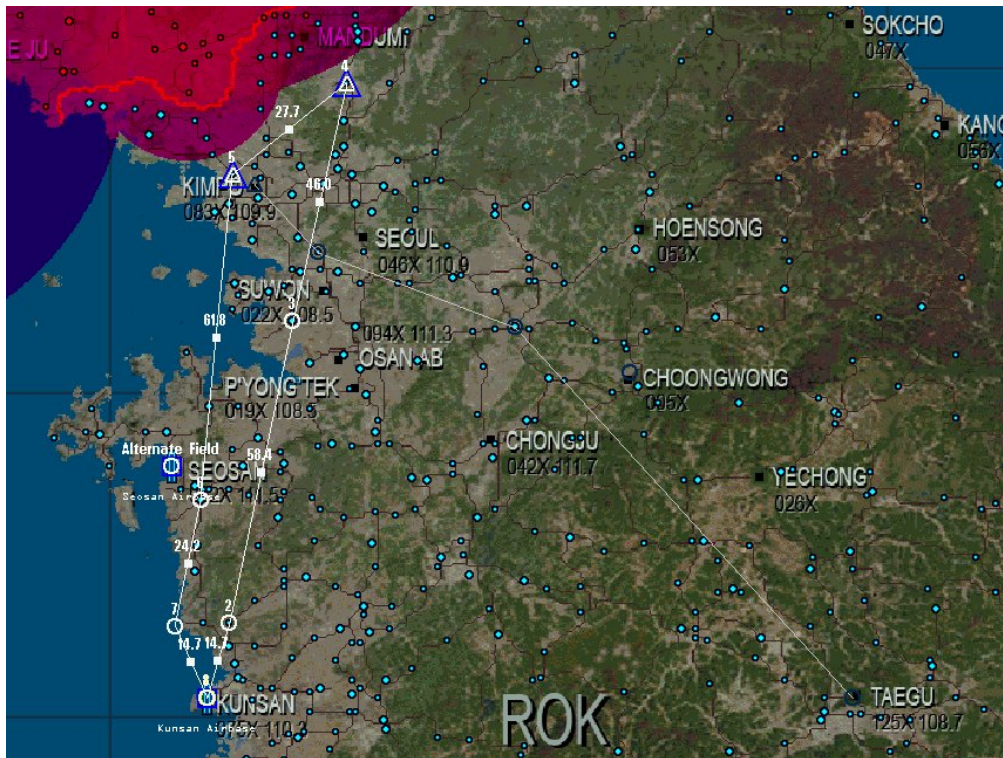

An E-3 AWACS is on station south of Seoul to provide ELINT.  
President Doosh's flight will be escorted by two F-15Cs.  
HAWK SAM installations at Kimpo and Mandumi Airbases.  
Patriot SAM installation at Seosan Airbase.

## ENEMY INTEL

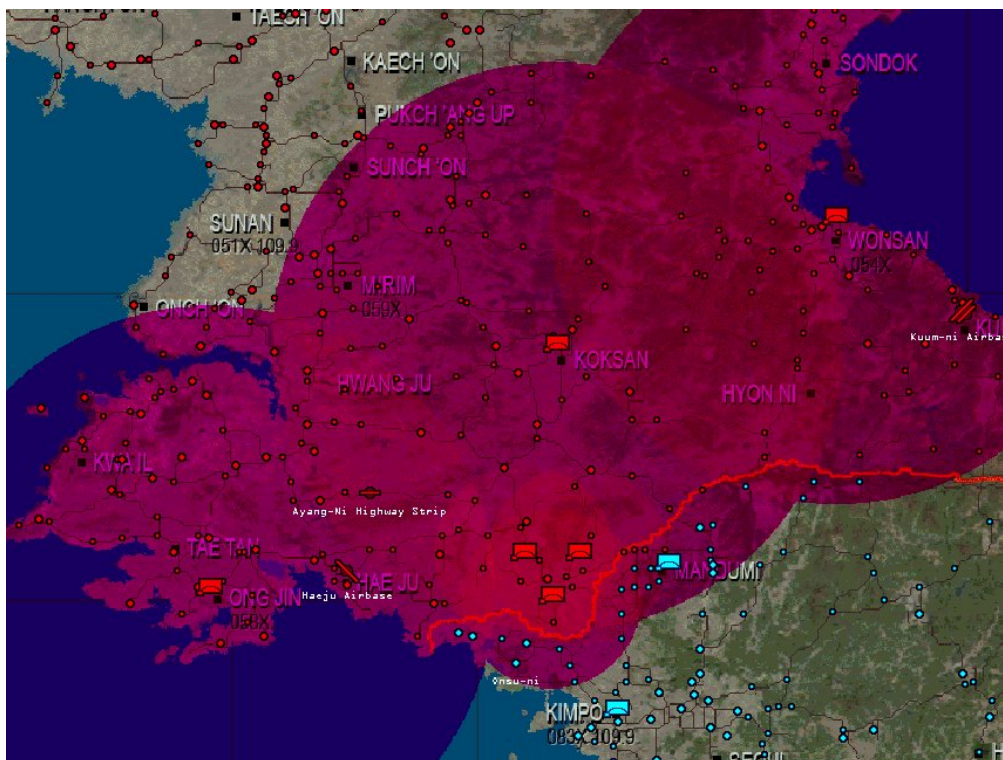

Fixed SA-2 installations near the DMZ.  
SA-5 installations are at Wonsan, Koksan, and Ongjin (see Image 2 below).  
All SAM/AAA threats can be confirmed in the Online Planner.  
All DPRK squadrons can also be confirmed in the Online Planner.
