CURRENT SITUATION

Until recently, Allied Forces have been able to fly recon flights over Serbia and Montenegro unhindered. However, last night an E-2 was shot down in the region of Roz city, and everything is pointing towards an SA-10 installation becoming active. Recent satellite imagery has since confirmed there is a new SAM site active at Pek Army Base. It is the 185th job to disable this SAM site immediately.

MISSION DETAILS

Cowboy flight has been tasked a four-ship of F-16C-40 to destroy the SA-10 at Pek Army Base. Falcon flight has been tasked the same to provide SEAD Escort for the strike flight. The bad news is we have no Anti-Radiation missiles available...

Intelligence info for the area is very good:

The primary target is an SA-10 site, in particular the Flap Lid radar:

All other details are available in the Online Planner. Good luck and enjoy the scenery!
