CURRENT SITUATION

This week the 69th VFS of the Portuguese community is joining us in more one Air Pistols Teaser. Each team has about the same number of human pilots potentially flying any aircraft. ;-)

MISSION DETAILS

Weather – Good weather for flying!

Enemy – Team 1 possesses a vast arsenal of several weapons, ranging from old Soviet SAMs up to modern western high-threat 4th generation aircraft, capable of carrying the active weapons. Check the ORBAT for more details.

Both forces have carriers and share similar weapons in some cases. So be aware and keep your SA high for the whole mission.

Friendly – Check ATO for friendly air units operating in your area. Refuelling will be available during the duration of the mission.

Mission –

PACKAGE 2072: Defend Wonsan and Kuum-Ni ABs at all costs. Your CAP start at 23:30 and ends at 00:30. Good luck!

PACKAGE 2078: Search and destroy enemy SAMs at your target area. Koksan radar is a high priority target.

PACKAGE 2078: Search and destroy enemy SAMs at your target area. Hwang-Ju radar is a high priority target.
