## CURRENT SITUATION

This week the 69<sup>th</sup> VFS of the Portuguese community is joining us in more one Air Pistols Teaser. Each team has about the same number of human pilots, potentially flying any aircraft. ; -)

## MISSION DETAILS

Weather – Good weather for flying!

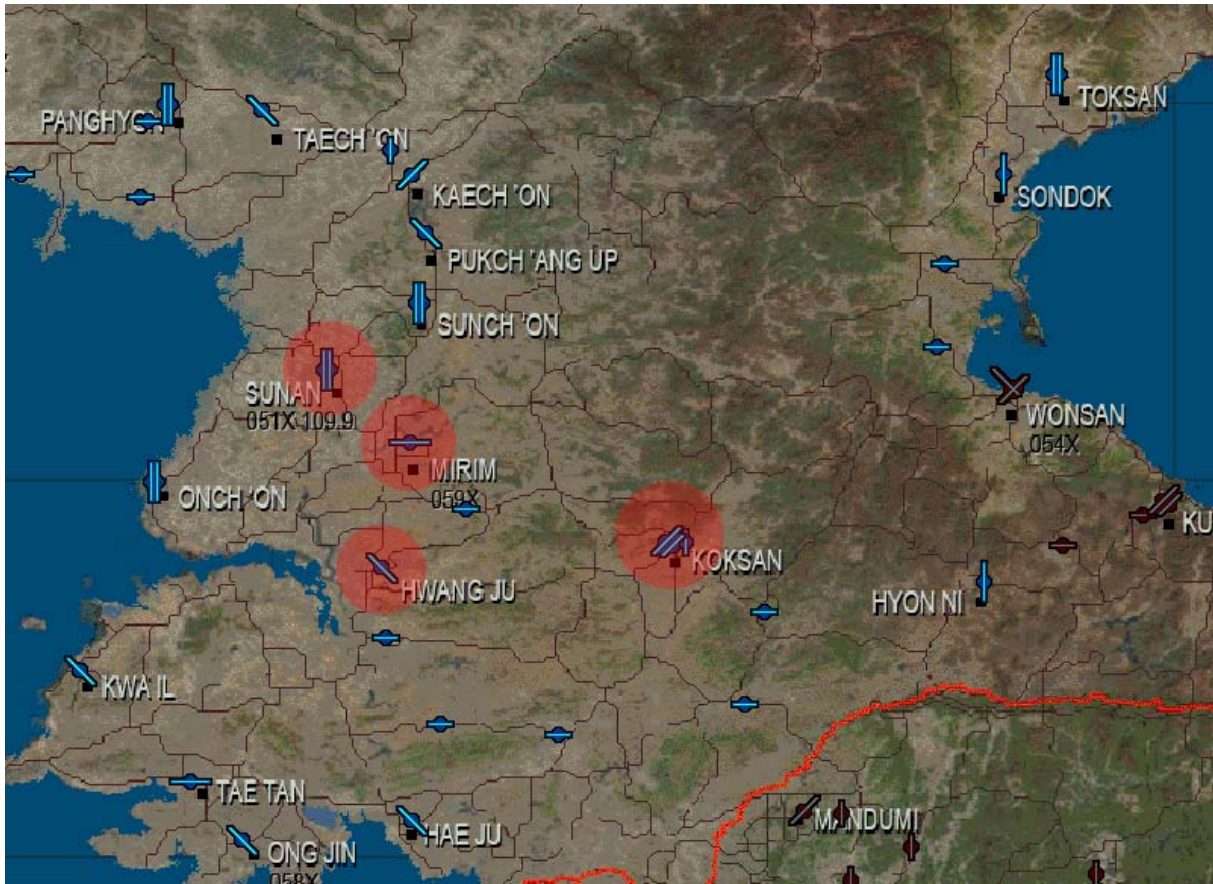

Enemy – Team 2 possesses a vast arsenal of several weapons, ranging from old soviet SAMs up to modern western high-threat 4<sup>th</sup> generation aircraft, capable of carrying the active weapons. Check the ORBAT for more details.

Both forces have carriers and share similar weapons in some cases. So be aware and keep your SA high for the whole mission.

Friendly – Check ATO for friendly air units operating in your area. Refuelling will be available for the duration of the mission.

Mission –

PACKAGE 2002: Defend Mirim, Hwang-Ju, Koksan and Sunan ABs at all costs. Your CAP start at 23:30 and ends at 00:30. Good luck!

SPECIAL RULE FOR THIS TE: Human AWACS (or any other pilot in the User Interface) **is not allowed** to offer either BDA on enemy ground units or position of enemy ground units, which are under attack or not. Its only task is to support the mission package on the air-to-air picture.
