Mission Success criteria			Cowboy1 Falcon1 Fury1	Prevent the destruction (or any damage) to Brindisi-Casale AB			
			Python1	No Losses to Lobo1 & Panther1 due to Enemy Radar SAM's			
			Lobo1 Panther1	Destroy: Runway, Control Tower, Radar and the 4 available hangars.			
Mission Partial Success criteria			Lobo1 Panther1	Destruction of Runway, Control Tower, Radar and 1 hangar.			
Air to Air Weapon Loadout (Free or Fixed)			Free				
Air to Ground Weapon Loadout (Free or Fixed)			Free - (NO A-G Weapons for Package# 3863)				
Mission Flight plan (Free or Fixed)			Free				

BACKGROUND

It seems that some nations are taking advantage of the global recession especially that which is effecting the West.

Revenge seems to be imminent, as Albania is pushing the area into a war with those daily threats towards the West and the presence of their forces in the region.

US Intel has been working hard along with other NATO intelligence to evaluate the seriousness of those Albanian threats.

CURRENT SITUATION

The Albanian Airforce is believed to launch an attack on Brindisi-Casale AB which is across the sea from Albania. Albania has been recently equipped with advanced fighters and possibly air defense systems.

Latest intel information suggests that Albania about to attack our valuable air base. NATO commanders have issued an attack on one of the most "Important" Albanian Airbase, Mifol.

MISSION DETAILS

Weather – See AF Briefing for details.

Enemy – Latest information reveals that Albania has numerous platforms within their active squadrons, including strategic bombers and advanced fighters, including: MiG-29A/S, Tu-16, Su-25 and expected to have the new version of the Su-30.

Ground-to-Air defenses consists of older version of Soviet made SAM's and some moderately new mobile SAM's along with high density AAA and IR SAM's.

According to US satellites, Albania has deployed a wealthy amount of naval units across it's sea border.

Friendly – Unfortunately NATO does have limited supplies in terms of air units, personnel and air defenses in the region.

We have a single E-3C that will provide us with air picture. Take-off time will be slightly late as we are not expecting any attacks at the moment. But that's the only air support we have.

Mission – Our mission is to destroy Mifol AB and prevent any attacks on our AB. If our AB is destroyed then reinforcements will be delayed and that's not on our side.

Target – Any details about the target, include target assignments, recommended attack profile, recon photos etc. Photos from Allied Force. can be captured using the Print Screen key and you can then copy from the clipboard into a paint programme.

Route – Package# 3863 are to provide air cover for BOTH: Our airbase and friendly flights. Route can be altered at the flight lead's discretion. Remember, AWACS will be providing air picture, and will have god's eye to help us better sort our targets. Rely on AWACS when possible.

ROE - Engage any contacts once cleared by your FL.

Ordnance – We have limited supplies on A-G munitions, package# 3840 is the only package authorized to carry A-G munitions, along with A-A weapons.

Good Luck!
