## BACKGROUND

HQ managed to infiltrate the DPRK air force with two pilots (Doris and Boris) and now the time has come to activate them. The Russian Prime Minister is aboard the Kusnetzov to take part in a presentation to the DPRK. The new SU-37 is ready for export and two planes have landed at *Samjiyon-up* Airbase. Our agents will hijack the planes and fly to a South Korean base.

## CURRENT SITUATION

Doris and Boris have given several crates of vodka to the guards and they will fall asleep more drunken than the other days. 03:30hours is the best time for takeoff and your job is to clear the path for them. Earlier today Doris managed to hack the security system of the SU-37 and could submit the programmed air defence plan:

### Weather

Wind 180 deg @ 17 kts  
 Temp 9 deg C  
 Clouds overcast @ 5000 ft  
 Conlayer 30k ft MSL  
 Visibility 14nm, excellent

### Enemy

Expect SU-27, MiG-21PMF, MiG-29A and flights from the Carrier Group.  
 Air defence systems are SA-2, SA-4, SA-5, SA-6, SA-10 (west and north west)  
 and several AAA sites.

### Friendly

You have AWACS and JSTAR support.  
 The SU-37 will be armed with an A2A loadout, check the ATO.

**Good Luck!**
