BACKGROUND

The USA and Europe have tolerated for years that the North Korean industry flooded western markets with cheap clothing (s. pic 1), knowing that men better not discuss with their wives about matters they have no clue about. Recently, our spy was able to get hold of next years top seller product (s. pic 2). And this is something we need to take action on! Imagine! Millions of women toddling along our streets with these nice alarm colours - we'll be blind in just one week!
