Mission Success criteria		Cowboy	Destroy first six elements on target list				
		Falcon	No losses to Cowboy from SAM/AAA				
Mission Partial Success criteria		Cowboy	Destroy first two elements on target list				
		Falcon	Max two losses to Cowboy from SAM/AAA				
Air to Air Weapon Loadout (Free or Fixed)		Free					
Air to Ground Weapon Loadout (Free or Fixed)		Free					
Mission Flight plan (Free or Fixed)		Free					

CURRENT SITUATION

A lightning attack, made with no warnings or indications, has allowed the DPRK to make good and quick progress into the ROK. Seoul has fallen, and enemy forces continue south. Analysis of their attack patterns has led us to believe they are making to capture the Nuclear Plant at Suwon, approximately 30 miles south of Seoul. As we know, Suwon Nuclear Plant has been processing uranium to bring supplies up to weapons grade for export to Japan. We cannot allow letting this vital installation fall at any costs, and the decision has been made to bury the entire site under rubble, thus making access to the underground stores all but impossible for the enemy troops.

MISSION DETAILS

We are to launch an 8-ship immediately tasked with destroying the Nuclear Plant. The 185th VFS currently based at Kunsan have been handed this vital task. A four-ship has been tasked with the strike, and a second four-ship will provide SEAD Escort for the strike flight.

Weather

Wind: - 237 degrees at 12 knots

Visibility: - Medium

Cloud Base: - 5,000 feet

Cloud Ceiling: - 6,000 over home plate, 8,000 feet at target.

Enemy

Capable aircraft are available to enemy forces, check OOB!

Expect various SAM and AAA to be present. A Patriot system has been captured in the attack and may very well be active against us.

Friendly

E-3A AWACS for Airborne threat ELINT

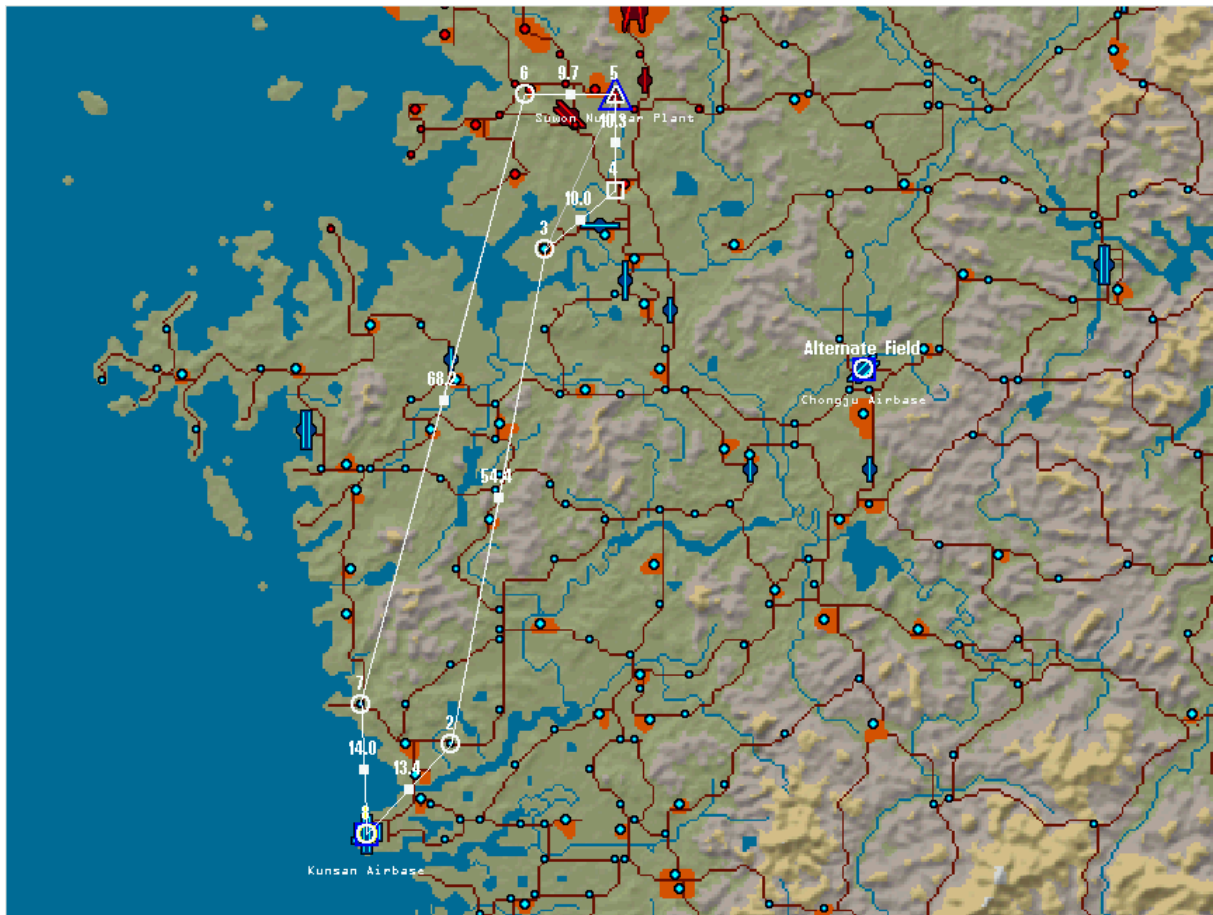

E-8 JSTAR for ground-based threat ELINT

Ordinance

All weapons are free at flight-lead discretion.

ATTENTION!

Suwon has fallen, so we must accelerate plans to immediate execution, despite the very poor weather!

Good luck!
Homer
