CURRENT SITUATION

Central America is in chaos again, as Colombia backed by Nicaragua and Cuba (collectively known as CALA) invade Panama in a successful attempt to gain control of the Panama Canal. Apart from the obvious implications to world shipping, it has become apparent several manufacturing facilities in Panama are being used for the processing and shipping of class A narcotics, the sale of which are playing a massive part in funding the CALA war machine.

MISSION DETAILS

A factory in San Sebastian has been identified as a refining and mixing factory for Colombian cocaine. Your squadron, currently based at Bocas Del Toro Airbase, have been tasked with the destruction of the mixing building at the factory.

As collateral damage has to be kept to an absolute minimum, it is vital you destroy **ONLY THE MIXING BUILDING** as briefed. Destruction of anything other than the mixing building will mean a reduction in Mission Success to a partial success only.

Military targets are free – you may destroy any and all required to allow you to complete the mission.

FRIENDLY SUPPORT

There is an E-3A AWACS on station to provide ELINT regarding enemy aircraft.

MISSION DETAILS

Target

Your package of 8 x F-16C-30 has been assigned to destroy the mixing building at the San Sebastian factory, as this satellite image identifies:

Con Layer at 30,000 feet

Very light ground fog, 5 percent density to 100 feet ASL approx
Visibility good to 30 miles at MSL

Target Area Conditions: As per Home Plate
No change expected

Enemy Intel

Our best intelligence suggests the localised air bases are protected by SA-2 SAMs, and an SA-5 SAM is active in Panama City itself. You should expect mobile SAM and AAA battalions to be present in the theater also.

Marcos Gelabert International Airbase is home to a squadron of MiG-29A fighters.

Chitre Airbase is home to a squadron of Mirage-2000C Fighters.

Enrique A. Jimenez Airbase is home to a squadron of MiG-21MF and MiG-23MF fighters.

All other details can be found in the online planner as normal.

Good Luck!
