Background

The allied Force has taken the airbases at Taetan and Ongjin. An enemy carrier has moved in close to the area and an attack is imminent to regain the airbases. The friendly 1027th Carrier task force has taken position to the west of Sunan and has immediate orders to take out Sunan Airbase, home to a deadly SU30MKK squadron. 2 F/A 18C Hornets from the carrier have been tasked with the job but have no SEAD protection and an SA10 is known to be active in the area.

Mission

The 185th is to provide the Hornets with SEAD by taking out the SA10 by 16:20hrs and also to destroy Onchon Airbase.

Enemy

Details of Hostile AC and locations are available in the "Order of Battle" at Mission Planning. SA10 is a primary target for the SEAD Escort before 16:20hrs. SA2, SA4, SA6 are expected with intel reporting a potential SA17 SAM unit on route that should be avoided.

The Carrier will have SA-N-6
