Air to Ground Weapon Loadout (Free or Fixed)			Restricted: see NOTAMS				
Mission Flight plan (Free or Fixed)			Free after Hwangju airbase				

BACKGROUND

Gentlemen,

Although we have made good progress in destroying the enemy frontline aircraft and weapons systems, we are encountering heavier than expected resistance from their second generation interceptor aircraft.

Rescued aircrew report,

We didn't see anything before we were hit...

Quick flash of a high altitude, high speed radar contact which turns away.. before we were hit...

CURRENT SITUATION

Intelligence reports that the retired ACE General Pij-uhn has been spotted touring enemy airfields and presumably providing instruction on old style boom and zoom ambush intercepts. More importantly, the enemy publicity machine is working overtime with press releases and photographs of successful pilots with General Pij-uhn.

The General's vanity is going to be his downfall, although General Pij-uhn travels in secret to his designation and by various means, his preferred photographer, Mr Tek Ur Pik is a keen pilot and flies in and out of his assignments in a Colt AN-2. The General arrives the evening before for the celebratory dinner and photoshoot. The next morning the General conducts a highly confidential briefing after Mr Tek Ur Pik has left the base before leaving himself at 06.00.

Latest Intel informs us that General Pij-uhn arrived at one of three airfields last night and will depart early in the morning. Mr Tek Ur Pik always departs the airfield in his Colt AN-2 at 05.30 to catch the print run. The General will remain on base until 06.00.

Briefing

Gentlemen, your mission is a simple one, take a photograph of the Colt AN-2 with Mr Tek Ur Pik and bring the roof down on General Pij-uhn's briefing.

MISSION DETAILS

Weather – Light winds, light scattered cloud across the theatre, temp 20 deg C.

Enemy – Main threat is now posed by the second generation interceptors predominantly Mig 25's, the remaining frontline aircraft are stationed deep inside enemy territory and only occasionally venture towards the FLOT.

SAMS – SAM sites are shown on the briefing screen, SA-2, SA-3 and SA-5, mobile units have been reported in the proximity of Haeju and Ongjin airbases.

Friendly – AWACS will be on station after 05.35 a.m. and then for the duration of the mission.

Cowboy Recon/Escort.

Depart Mandumi and proceed to your staging point at Hwangju airbase.

At steer point 5, separate and fly to your designated airfield.

Maintain radio silence.

Aim to arrive between 05:28 and 05:30 to catch the Colt AN-2 on the ramp/taxiway.

Photograph the AN-2 with your pod (for extra boasting rights) and take a screen shot to confirm visual ID.

Return to Mandumi

After Hwangju or 05:40, broadcast the code word indicating the target airfield, you may only broadcast the code word twice before landing at Mandumi.

The code word is

Tracey indicating the target airbase is **Taetan**

Olive indicating the target airbase is **Onch'On**

Simone indicating the target airbase is **Sunch'On**

Land at Mandumi, proceed to the control tower, open the cockpit and hand the film to the waiting technician. Take an external screenshot with the control tower in the background.

Switch to Escort role.

Take off and return to the staging point near steer point 3, your presence will be required to provide cover for the returning aircraft who will be desperately short of fuel.

Remain on station until SEAD and STRIKE have landed safely.

Land at Mandumi.

Sead/Strike.

You may commit to ramp start (highly recommended) or to take off.

Depart Seoul and make best speed to the staging point.

After receiving the code word, make best speed to target and carry out your mission.

SEAD - Destroy the SA-3

STRIKE - Destroy three hangers and one other significant target, hangers, admin buildings, factories, offices at the target before 06:00.

Land at Seoul.

Escort will be airborne to cover your egress close to Mandumi

Target –

Recon flight to photograph the Colt AN-2 on the ramp, taxiway or runway before 05.30.

Sead/Strike destroy designated buildings before 06.00.

Route – Routing is fixed until Hwangju.

ROE - Recon/escort are not permitted to carry AG weapons.

NOTAMS:

In order to expedite mission time SEAD/STRIKE will launch before the RECON flight has landed at Mandumi and delivered the photographs. Pay close attention to the transmitted code word. It will only be transmitted twice before the recon flight land at Mandumi.

1.) Recon/Escort flight will be radio silent from SP4, (in flight only, no broadcast). They are only permitted to break radio silence after crossing Hwangju airbase or time 05:40 to broadcast/transmit a single code word, this may be repeated once more only before landing at Mandumi.

2). An in field windoze software update has crashed some electronic weapons systems. There are no Harms or ECM pods available, mavericks and LGB's may also be unreliable.

3). Be prepared for Alert 5 enemy take offs.

4). Immediate mission fail

if recon flight transmits the code word or identity of target airfield before Hwangju or 05.40,

Recon flight broadcasts the code word more than two times before delivering photographs to Mandumi.

Addenda.
