Re: **Twin Powers**

Put Their Lights Out!

Gentlemen, the mission is to destroy the two Nuclear Power Plants at Nanam and Kujong-dong. Two packages of F-16C's will leave Samjiyon-up Airbase at dusk and each will attack a plant using the only available ordnance, Mk-84's.

Reports suggest heavy enemy air defences in the area, so SEAD support has been called in from Nachodka Airbase in the form of F/A-18D's. You will also be fitted out with one HARM each in case the Hornets are unable to suppress all threats.

Steerpoints and Weapons are fixed!

When entering the valley at SP-3, drop to minimums and stay there to avoid spikes from threats on the other side of the mountain ranges. **Do not** exceed SP Times or you will pre-empt the SEAD Strike.
