

# **Aerial Onslaught**

By Triton

We have been kicked out of Korea!

Well we will return..... our Air forces are now based at Kadena AB, Japan, and we will provide some serious punishment to the impertinent DPRK forces !

However we are still a bit on the defensive..... our main problem is that the DPRK are subjecting us to a hailstorm of SCUD missiles.

Our job is to take the two battallions out that are launching the missiles.

Make no mistake.... It will not be a walk in the park!!

The enemy has prepared well for any air attacks we can make, they have fighters at near every southern airbase in Korea.

We know of MiG-21, 23, 25, 29 and also two squadrons of SU-27.... All are based in the south region.

Several SEAD flights have been tasked to soften the defences before our assault on the SCUD:s, as well as a F-14 Sweep off the coast of Korea.

## **NOTE:**

ONLY packages 3702 and 3704 are for human use.

**Loadouts are fixed, steerpoints are fixed!**

Expect the air traffic to be busy, as you see we have many packages in the air! Don't be surprised if the enemy has the same.....

Good luck!
