

All out War

By Triton

The tides of war are turning against us, both China and Russia have entered the conflict. The chinese have pressed down the west coast all the way to the southern tip of the peninsula. The Russians have advanced down the east coast, they have captured Gangneung Airbase and are now using it for offensive operations.

We've got our backs to the wall here, and we must hamper the enemies advance. Our mission consists of two 2-ship F-16 flights, one will strike Jeomcheon Airbase and the other will take out two bridges.

P	Takeoff	Role	Package	Status
A	09:11:53	Deep Strike	3698	Briefing
A	09:13:53	Deep Strike	3686	Briefing
A	09:19:34	Pre-plan CAS	3716	Briefing

Note: Pre-plan CAS 3716 is not for human use!

Loadouts and steerpoints are free.

Intel:

There are MiG-29 based at Jeomcheon airbase, so beware of scrambling fighters. North of the target bridges a DPRK tank battallion is moving south, they are probably heading for the bridges.

Enemy ADA consists of one SA5 near Jeomcheon and one SA2 east of the bridges.

The Pre-Plan CAS has targetted the SA5, and should strike it a few minutes before the deep strike arrives.

The chinese have pushed hard along the south coast and have a tank battallion not far from Hwa Dong airbase. They also have SU-27 based at Kunsan, so keep an eye out for them.

Agents have told us that the enemy will do whatever it can to keep our aircraft on the ground, so beware that the enemy might capture or strike your home plates.

The recon of the airbase:

Slant Range: 1400 ft Bullseye: 129 126 nm
