

Brassbusting

By Triton

The task for this mission is to strike the Cheonan Headquarters.

Intel has reported that the DPRK general staff will be there for a meeting, and we have the chance to de-head their army with one strike.

The target is the barracks shown below.

RECON

Slant Range: 1660 ft Bullseye: 326 81 nm

TARGETS

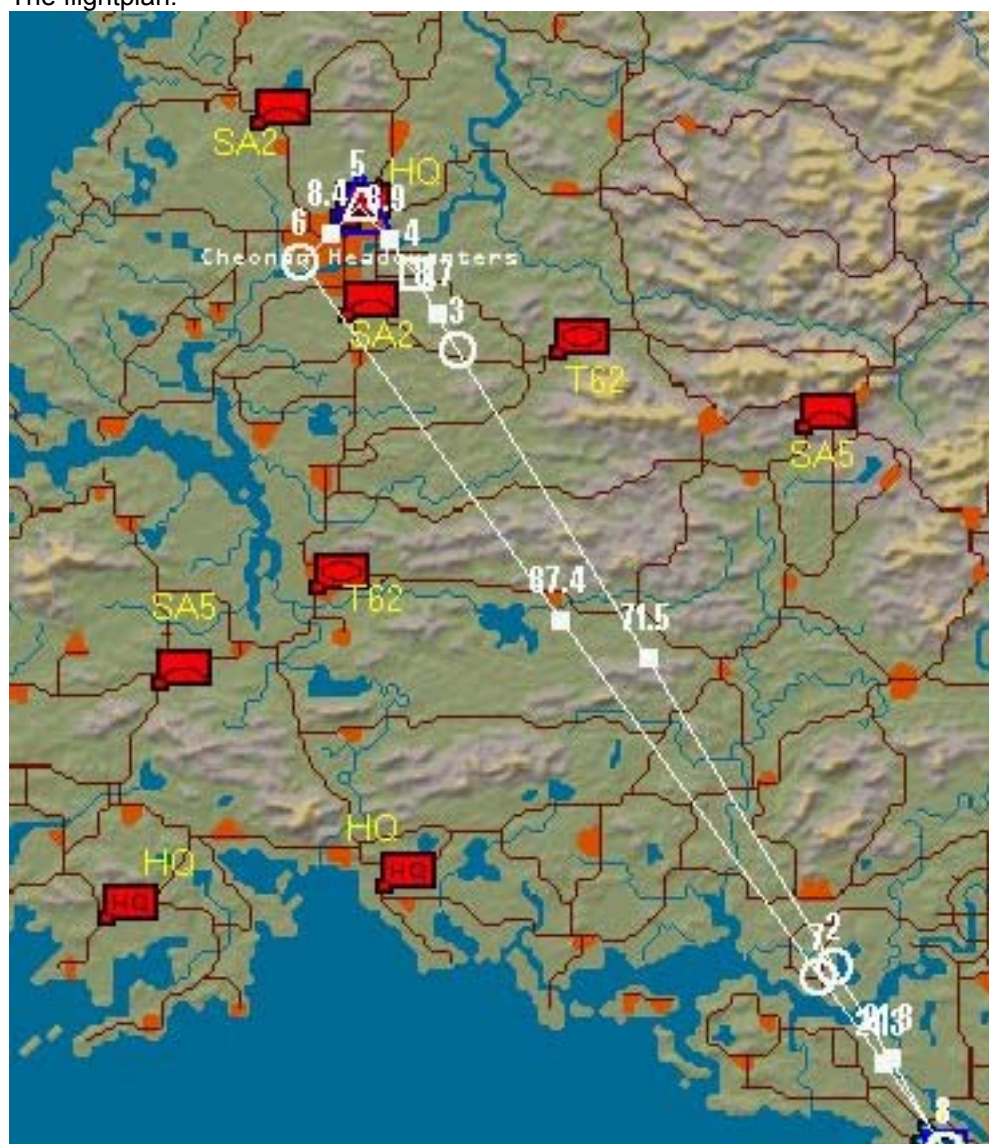

TARGET LIST

TARGET	CONDITION	VALUE
 Cheonan	100% Operational	
 Cheonan Headquarters	100% Operational	
Depot	No damage	Medium
Depot	No damage	Medium
Barracks	No damage	Low

Since the headquarters is in the most defended area of north Korea, it is well defended.

Hold on to your hats ladies and gents, this will be a tough one!

The flightplan:

As you see, flying high will be difficult, plenty of surface-to-air missiles around.... The two tank battalions are reported to be moving towards the FLOT, so keep an eye out for them.

Air threats consist of MiG-29, -23 and SU-27. Beware, the SU-27 is now reported to have the AA-12 Adder in the inventory! If you encounter them, take caution!

The flights:

BRASS BUSTING				
MISSIONS		USA		
P	Takeoff	Role	Package	Status
A	09:11:00	Deep Strike	97	Briefing
A	09:13:00	SEAD Strike	3695	Briefing

All aircraft available are F-16C.
Loadouts and steerpoints are free.

Be very careful on this one!
It will require teamwork and good planning to get home in one piece.
Good Luck!
Col. Triton
