

## **INTERCEPTORS!**

Due to recent advances along the Eastern front by ROK and US forces the Chinese have decided to enter the fray.

Intelligence is certain that the most pressing need of the DPRK at present is for AA missiles, and in response it has been discovered that China is sending 8 AN24 cargo planes, stuffed to the gills with them.

Obviously we cannot allow this airlift to succeed, equally obvious will be the determination on the part of our foes to ensure it DOES succeed, I don't need to paint a picture here Ladies and Gentlemen, this mission will mean a hard fought air battle, The Chinese are certain to use the dangerous SU27, though we are fairly certain, that as yet, they have not received the AA12 Adder Missile, be glad of that, it's a short lived situation, they do have the AA10C, the DPRK will also be supporting with their own aircraft.

The airlift is **flying from Shengyang to Manpo Airbase**, a 4 ship F4G Wild Weasel flight is tasked with attacking the SA2 air defenses there in case you have to over fly it, **if possible**, ALL 8 AN24's must be destroyed, it is imperative, for the continued Allied control of the air war that none of these missiles reach there destination.

12 aircraft are tasked with this mission; Weapon loads are at your discretion.

Flight 3697	4 F16 C	Ambush Cap
Flight 3695	4 F18/C	Ambush Cap
Flight 3702	4 F4G	Wild Weasels

The F18's and F16's are available for Human Pilots to fly, Not the F4's.

Note that enemy ground units are in the area and are well equipped with surface to air defenses, Stay out of their launch envelopes!

Flight Leads need to be aware of the "OK" status for shot down F18's  
If your wingman is shot down the Debrief will sometimes give OK as a result, you will need to adjust accordingly.

Mission are set as Ambush CAP for the reason that falcon has conflicts reporting a mission success with intercept and sweep missions, The CAP Station time has been set at 0:00:00, You must be sure to fly within 5 miles of SP' 3 and 4 and have them selected in order to get success with Falcon, this will leave you free to pursue the Bandits without compromising your on Station time. Do your very best to Destroy all 8 of the Transport aircraft, our continued Air Superiority depends on your efforts.  
Good Luck all.

It's Air Combat Time!!!

Winder.
