

The 185th Reservoir Dogs VFS

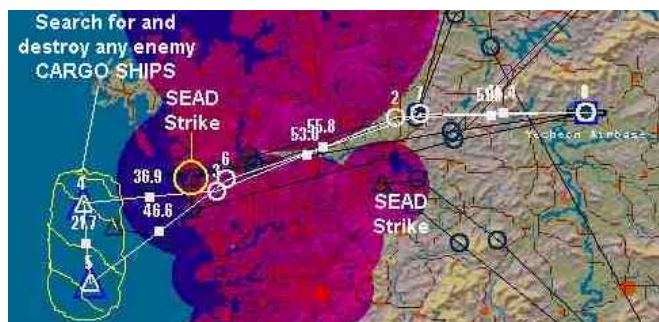

Commanding Officer: John "Triton" Waller

Executive Officer: Nils "Wolverine" Holmgren

Supply & Demand

It appears the conflict is finally going our way. After the devastating blitzkrieg attack by the DPRK and its allies we have finally succeeded in not only stopping their advance but also forced them on the defensive. Friendly ground units successfully broke the enemy's armoured advance in the south west of the country and continue to force them back up into the area around Kunsan. Our air assault has been going on since midnight and we have hit the area hard destroying much of the enemys ADA and radar facilities. We are to continue the effort and further break the enemys resolve by hitting their supply lines, naval, land and air.

A convoy was spotted earlier and their expected position is indicated by the shading on the map. It is our task to hunt them out and destroy them. Your PRIMARY GOAL is to destroy any CARGO SHIPS present. Once the cargo ships are destroyed remaining craft can be targeted.

Known threats:

ADA: SA2/ SA3/ SA4/ SA5

Aircraft: Mig29A/ Mig21/ SU27

Your package designation for this mission is **4048 Interdiction** and comprises of 4 x F16's, callsign **Panther 1**.
